**DETAILED ACTION**

***Election/Restrictions***

1. Claims 10-19 and 27-29 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected inventions, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 5/3/2007.

***Allowable Subject Matter***

2. Claims 1-9, 20-26, and 30-33 are allowed over prior art of record. The following is an examiner's statement of reasons for allowance: Ohishi et al. (US 6385535) disclose a method of registering a shortcut name corresponding to a destination for a speech recognition system in a vehicle navigation system, the method comprising: receiving a destination to which directions are requested from the user (*figure 1*). Ohishi et al. fail to specifically disclose the steps of determining whether the received destination is a frequently requested destination; responsive to determining that the received destination is a frequently requested destination, receiving a shortcut name corresponding to the received destination as speech from the user and recognizing the shortcut name by speech recognition; and registering the shortcut name to a personal profile of the user. Furthermore, it would have not been obvious to one of ordinary skill in the art at the time of invention to modify Ohishi et al. in order to obtain the claimed invention. Therefore, claims 1-9, 20-26, and 30-33 are allowed over prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
